Summary

With over 10 years of experience as a full-stack developer, including working on a large-scale social ped project, I am excited to pursue a role as a Junior Front-End Developer. I have successfully contributed to the creation of a popular social network for Ukrainian settlements, which attracted 583K unique visitors in 2022. I am confident that my skills, passion and experience in building user-centric applications will enable me to make valuable contributions to your company.

Project Experience

1ua.com.ua (HTML, CSS, JS, PHP, MySQL)
First social network about all Ukrainian settlements. Contain more than 1 million photos and 115k users organized by Laravel Framework.
Role: Team lead. Individual project.

WebStudio, GitHub (HTML, SASS)
It's a little portfolio about some IT company. Several pages introduse goals, productrs, spesialists, clients and company contacts.
Role: Developer. Individual project.

MIMIHO, GitHub (HTML, SASS, JS, Parce)
It's a small project about restaurant. All the pages mobile adapted, have excelent performance, accessibility.
Role: Team lead. Group project.

Phonebook, GitHub (React: Hooks, Router, Redux)
A simple phonebook connected to backend API - you can register, log in, add, remove or filter contacts, log out.
Role: Developer. Individual project
